THE DEBARKATION OF THE FRENCH .- A little after 6 o'clock the first French boat put off from one of the men-of-war; not more than fifteen or sixteen men on board of her. She was beached quietly on shore at the southern extremity of the red At ten o'clock yesterday the Phoenix, screw, one of the last expedition fitted out by the British government for the North Sea, dropped anchor in our waters, having on board Capt. M'CLURE, the hero of Arctic navigation, and several of the crew of his vessel. It will be remembered that in May of 1850. vessel. It will be remembered that in May of 1850, an expedition was sent for the double purpose of the tricolor was run up to the top, and fluttered out ascertaining the fate of Sir John Franklin, and of gaily in the wind, while the men took off their hats. continuing the exploration of the long-sought northwest passage. This expedition consisted of two session and seizin of Crimea. There was no enemy in sight. The most scrutinizing gaze at this moment could not have detected a hostile uniform along the shore. The French Admiral fired a gun northern coast of America. Up to the year 1852, shortly after 8 o'clock, and the disembarkation of no account had arrived of the fate of those vessels, that they got 6,000 men on shore. This was very the command of Sir Edward Belcher, consisting all the French army were on board line-of-battle Capt. Kellett, the Intrepid, Capt. M'Clintock, the land, by the men-of-war's boats. It was found assistance. Thus, there were then altogether six that their small brigs and schooners were neither ships engaged in prosecuting the investigation, in which alone Capt. M'Clure has been successful.— In the May of this year the Phoenix, screw, and fleet of French men-of-war carried more than 20,-000 men. Their whole force to be landed consistthe North Star and Talbot, storeships, were sent out to the relief of those vessels, and on their armen, and were embarked in a vast number of transwith one exception, the Enterprise, completely ports, covering a vast extent of water. But they blocked up in the ice in the district embracing there was still much sickness on board, it is nothwere carried in comfort and safety; and though Straits. In Melville Bay the ice was found to be ing compared to the mortality among the closely worse than it had been for forty-seven years before, packed French. The instant the French had lanced a regiment, a company was pushed on to reconnoitre-skirmishers or pickets were sent in front. ever of getting the ships free this Summer. Un- As each regiment followed in column, its prededer these circumstances, Sir EDWARD BELCHER, on cessors deployed, extended front, and advanced in light marching order en tirailleur, spreading out the entire five vessels, which are accordingly left to like a fan over the plains. It was most curious their fate and the crew distributed among the storenote the rapid manner in which they were approand the crew of the abandoned vessels had to proceed a distance of two hundred miles overland to tachment had landed, nearly 9,000 troops were on shore, and their advanced posts were faintly discernible between three and four miles from the It is known here, and in Europe ere this, that beach, like little mack spots moving over the corn

How Soldiers Fare in Landing.

The showers increased in violence about midnight, and early in the morning the water fell in The Artic Search.

The public mind can hardly have been prepared ets and greatcoats of the houseless tentless solurated blankets or bits of useless water proof wrap-It is to be presumed that Sir EDWARD BELCHER pers, and the twenty odd thousand of poor fellows,

It is not, we trust, owing to Foraging parties of both nations continually causes so ignoble as these that the public service scour the country in search of provisions and carts. has suffered and the claims of humanity been sacri- The progress of the army is greatly hindered by the want experienced of the latter article, and the Once more we may invite attention to the consola- baggage will, it is feared, have to be left behind. Hortory absence of all disaster in the returning Arctic | ses are not to be obtained, and many officers and all Expedition, or mortality reaching even to the usu- "special correspondents" will be obliged to sacrifice tents and baggage, and tramp with the army.

HAVING A TRADE .- By all means have a trade. Do not go up and down in the world, and find nothing you can put your hand to. You may not always be as prosperous as you are now. Thank heaven we live in no land of primogeniture, hereditary succession. Each man is morally bound by labor. Have something you can turn your energies to when time pinches, have a trade we repeat. Educate your hand: it will be an everlasting resource. We never knew a man, who, with a good trade, failed of getting a good living, and much more with right application. What though you are going to coilege or into a profession? The case is not altered you need it just as PERPETUAL MOTION.—Eureka! Steam engine much. It will come in play every day in your life.

Discipline of the hand should always go before that white fel hats with covers, white wool hats, Leg- may cease their labored breathings, and with all of the head. We never knew a college boy that their adjuncts of boilers, spark-catchers, smoke- wasn't better for a substantial trade. He always White shirts fancy bosoms, do. do. linen bosoms, consumers, and other patent fixtures, retire to the graduates with the highest honors.
